What Are We Aiming?

Traditional savings accounts are often too passive and boring to motivate young customers to save money regularly.

To solve this, we developed the **Digital Piggy Bank System** a goal-oriented savings prototype that uses simple gamification to make saving fun and engaging.

Instead of just holding money like a standard bank account, our system acts as a smart financial friend who helps users save for their dreams.

Banking Products

Banks always need cheap funding, and customer deposits are the best way to get it. Our Digital Piggy Bank is a great tool for creating current savings account funds.

Small but Steady Deposits
When customers save small amounts regularly for a specific goal, the bank gets a stable and low-cost pool of money.

Customer Loyalty
If a customer is emotionally attached to reaching their goal on our app, they are much less likely to move their money to a competitor bank.

Digital Banking

Today, a banking app shouldn't just be a place to check your balance; it should be a helpful assistant.

Some banks already have similar features, but we are offering something different. Instead of typical assistant, we are creating a financial companion enriched with the image of a piggy bank, acting like a friend with whom customers can connect

Innovative Features

Gamification

By adding a cute "Piggy" mascot, progress bars, and celebration messages, we turn saving money from a stressful task into a rewarding game.

Smart Planning

Instead of just waiting for the user to deposit money, our system calculates their "Safe Savings Power" based on their income and expenses. It then tells them exactly how many months it will take to reach their goal.

HOW THE PROTOTYPE WORKS ?

When the user opens the app, we don't just ask for numbers. We ask, "What is your dream?" to make it personal. Then, we ask for their monthly income and mandatory expenses to understand their real financial situation

```
        ✨   🪙   ✨

🏦 DIGITAL PIGGY BANK 🏦

"Your sweetest companion
 on the path to your dreams!"

##################################################################

Hi! I am Piggy, your personal digital piggy bank.
Tell me your goal, and let's handle the rest together!

STEP 1: What is that incredibly exciting goal? (e.g., Motorcycle, Vacation): Laptop
STEP 2: Oh, great idea! How much total money do we need for 'Laptop'?: 50000
STEP 3: For me to draw a complete strategy, what is your monthly net income?: 35000
STEP 4: Lastly, what are your total mandatory monthly expenses?: 28000

✨ Supersonic! Data processed. Piggy is ready for you!
```

Piggy Control Center and Dashboard

After the setup, the user sees the main dashboard. Instead of a boring bank statement, they see our Piggy logo, a progress bar, how much money they have, and how much is left to reach the target

```
----------------------------------------
            PIGGY CONTROL CENTER
----------------------------------------
1 → 📊 Piggy Dashboard
2 → 💸 Deposit Money
3 → 💡 Piggy's Future Prediction
0 → 🚪 Secure Exit
----------------------------------------
What would you like to do? (0/1/2/3): |
```

Deposit Money and Warnings

When you select option number 2, "deposit money," the system allows you to deposit funds, enabling you to track your progress. However, the smart assistant Piggy is designed to send a warning if it detects that you have exceeded the secure monthly deposit limit. This ensures the system is user-friendly and budget friendly.

```
          PIGGY CONTROL CENTER
----------------------------------------

2 → 💸 Deposit Money
3 → 💡 Piggy's Future Prediction
0 → 🚪 Secure Exit
----------------------------------------
What would you like to do? (0/1/2/3): 2

--- DEPOSIT TRANSACTION ---
How much are you putting in Piggy today? (TL): 10000

💰 Shaking the piggy bank and dropping money...
✅ TRANSACTION SUCCESSFUL! 10,000.00 TL added to your piggy bank.

⚠️ Piggy Warns: You exceeded your safe savings capacity.
Going fast is good, but please don't shake up your budget!

✨ PIGGY SAYS: "Every drop makes an ocean, every penny makes a dream."
```

Future Prediction

In the future prediction section, the intelligent assistant Piggy compares the amount you have deposited with your ultimate goal and calculates the time required to reach that goal.

Montly Expenses 28000

Net Income 35000

%27

Remaining: 36.500

```
        ✨  🪙   ✨
           \
     _._  _...._  _
    /    _O     O \
    |   ( o o )   |
    \    '---'    /
     '._         _'
       /'-----'\
      //       \\
```

🎛️ DIGITAL PIGGY BANK 🎛️

"Your sweetest companion
 on the path to your dreams!"

★★★

It tells you how long it will take to get your dream product without breaking the bank.

```
==========================================================
💡 PIGGY AI FINANCIAL COACH 💡
==========================================================
🎯 Your Goal: Laptop
📉 Remaining Amount to Climb: 36,500.00 TL
💼 Your Monthly Safe Savings Power: 7,000.00 TL

👉 PIGGY'S PREDICTION: If you continue with this discipline,
in exactly 6 months, 'Laptop' will be yours!
==========================================================

✨ PIGGY SAYS: "Future you will thank present you!"
```

Achieving the Goal

- If you deposit the safe amount into your Piggy account each month, you will reach your goal within the timeframe predicted by the system.

- For a more visual representation, Piggy will congratulate you with a visual trophy once you achieve this timeframe.

```
  .-========-.
 \'-======-'/     🎉 INCREDIBLE SUCCESS! 🎉
 _|   .=.   |_     You reached your goal. Time to
((|  {1}  |))    turn your dreams into reality!

✨ PIGGY SAYS: "Wealth is not how much you earn, but how much you keep."
```

WHY BANKS WOULD LOVE THIS ?

Cross-Selling Opportunities

If a user is at 90% of their goal but needs the item right now (like a laptop), the bank knows exactly what they are saving for.

The bank can offer a small, customized personal loan or credit card installments to help them finish the goal immediately.

Valuable Customer Data

When users type in their goals (like "vacation," "motorcycle," or "wedding"), the bank learns exactly what its customers want to buy.

If the bank sees that thousands of young users are saving for travel, they can create special travel credit card campaigns just for them

Cheap Deposits for the Bank

Banks need money to give out loans. When thousands of users save small amounts every week in these digital piggy banks, it creates a massive pool of cheap funds for the bank.

Since these goal-based accounts usually pay little to no interest to the user, the bank gets a very low-cost funding source.

Brand Partnerships

Because the bank knows what the user is saving for, they can make deals with big brands.

> For example, if a user reaches their target to buy a new smartphone, the bank can offer a special 5% discount code if they buy it using the bank's debit card.

Attracting Young Customers

Traditional banking is boring for students and young professionals.

A fun, game-like app with a cute mascot makes the bank look modern and friendly.

It brings younger generations into the banking system early, turning them into lifelong customers.

Teaching Financial Responsibility

- By warning users who try to save more than they can afford, the bank shows it cares about the customer's real financial health, not just taking their money.

- This builds huge trust and loyalty between the customer and the bank.

We started this project to solve a simple problem: The difficulty of saving money and the lack of motivation felt in this regard, especially by young people.

The Digital Piggy Bank completely changes this dynamic by turning a basic banking product into a *fun, interactive*, and *personalized* financial coach.

THANK YOU FOR LİSTENİNG
